

# HANDGUN TRAINING

NRA  
•  
CERTIFIED

## Don't Jump the Gun

\$100 per person for 2 hours of training

We all want our gun to be THE LAST OPTION. Unfortunately, most people haven't learned any other options to drawing their weapon. This is physical training, under stress and fatigue. That's when you'll really need this training the most. We use force-on-force drills to instill these other options. Nobody wants to shoot someone unless they have no choice. You'll learn and practice:

- How to escalate and de-escalate, both verbally & physically
- Fighting from positions of disadvantage while retaining your weapon
- How to retain & access your gun under pressure

## Firing Range Private Instruction

\$60/hour pp

Responsible gun owners are an asset to their families & the community in general. Regular practice with your weapon is an integral part of a gun owner's role in society. Let Pinnacle Tactics training advance your handgun skill with one-on-one, state-of-the-art firing range instruction.

You won't find this depth of training anywhere else!
